*Professional, Caring, Reliable*

## **Regulation 17 Care Compliance Audits**

Our individually designed care compliance audit is based on the CQC's regulations to ensure that your services are meeting the required objectives to a suitable standard. Whether you require a whole business audit or to look at a single area in depth, we will have a service for you.

Our audit, report findings and potential recommendations, enable you to find any possible areas of non-compliance, helping you to make the relevant changes to show your commitment to independent quality assurance (Regulation 17) and continuous improvement on your next inspection visit.

## **Improve your current CQC Ratings**

Should you have received a rating of 'Requires Improvement', 'Inadequate', or a 'Notice of Proposal to Cancel Registration' during your last CQC inspection, we have the experience to guide you to make the necessary changes.

We can work with key individuals or your entire business team, to demonstrate structured planning and implement new and improved methods, to target those areas of non-compliance, aiming to improve your rating.

## **Continued Independent Quality Assurance**

Once you have had your initial audit, why not take advantage of having a regular visit from a third-party auditor? Whether that be monthly, quarterly or yearly, we can check that procedures and standards are being maintained within all areas of your business throughout the year.

If you are unsure of how things are progressing, or you just want to check you're doing things correctly, our auditors can keep you on track and give you peace of mind that your next inspection will go smoothly.

We offer a wide range of bespoke support services to monitor any care quality, management or CQC compliance regulations you may need.

We will view your requirements and tailor our service to your specific needs at an affordable price.
